

# library book reservation system

form :

The screenshot shows a web browser window with the URL `creatorapp.zoho.in/akulareddy072007/library-book-reservation-system/#Form:library_book_reservation_system`. The page title is "library book reservation system". On the left, there is a sidebar with a logo and navigation links: "library book reservation system", "library book reservation system", and "library book reservation system Report". The main content area contains a form with the following fields: "title of the book", "author", "publication", "year" (with a placeholder "#####"), "edition", "number of copies" (with a placeholder "#####"), "rack number", and "status" (with radio buttons for "Available" and "reserved"). A "Submit" button is at the bottom right of the form. A user profile dropdown is visible on the left, showing the user's name "Akula Reddy Prasad" and email "akulareddy072007@gmail.com", along with links for "My Account", "Home", and "Sign out". The bottom of the browser shows a taskbar with various application icons and a system tray with weather, search, and time information.

## Report

The screenshot shows the "library book reservation system Report" page. The table displays the following data:

| book id | title of the book | author          | publication | year | edition | number of copies |
|---------|-------------------|-----------------|-------------|------|---------|------------------|
| 3       | python            | reema thareja   | oxford      | 2020 | 2nd     | 5                |
| 2       | DBMS              | Korth           | pearson     | 2022 | 7th     | 8                |
| 1       | cloud computing   | raj Kumar buyya | mcgraw hill | 2021 | 3rd     | 10               |
